## Preface

### United States Merchant Marine Vessel Logbooks

Official Logbooks were issued to American registered vessels in the foreign trade at the beginning of each voyage, and were turned in to the United States Shipping Commissioner at the port where the vessel ended its voyage. After 1937, these logs were also issued to vessels in the coastwise trade.

Most of the logbooks for the World War II period became part of the records of the United States Coast Guard, and were originally consolidated and stored in the National Archives' Washington National Records Center in Suitland, MD. These logs were subsequently transferred for permanent retention and preservation to the National Archives Regional Services Facilities located geographically closest to the ports where the logs were originally turned in, i.e. where the vessel ended its voyage.

Logbooks are arranged chronologically by termination date of the voyage. The information contained in the log includes the vessel's name, official number, home port, master's name and certificate number, a list of crew members, date that the voyage commenced, destinations, a chronological summary of significant events and required drills, and a record of payments to crew members.

The logbooks in the National Archives are **NOT** the "traditional" ships' logs often referred to as "Deck Logs." Logbooks in the National Archives are those issued to masters of vessels in accordance with federal laws and regulations passed to protect the health and welfare of merchant sailors. Logbooks in the National Archives **DO NOT** usually contain descriptions of wartime actions in which the vessel was involved. Some World War II period logbooks do not name ports visited during the voyage due to wartime security restrictions.

#### ***RESTRICTIONS ON THE AVAILABILITY OF LOGBOOK INFORMATION:***

Since official Merchant Vessel logbooks contain information relating to many individuals which may be of a personal nature, they are subject to the privacy provisions of the Freedom of Information Act (5 U.S.C. 522). Entries which relate to medical or disciplinary matters concerning individuals **OTHER THAN THE REQUESTOR** may have to be deleted from copies provided, under Exemption (b)(6) of the Freedom of Information Act, which exempts the release of information, "...the disclosure of which would constitute a clearly unwarranted invasion of personal privacy."

## Guide to Using the Merchant Vessel Logbook Locator

How to Use this Finding Aid to locate the National Archives facility that holds the relevant logbooks:

Step 1 – Locate the name of the vessel in the main body of the book. Vessel names are arranged alphabetically by the first letter of the first word in the name.

Step 2 – See [Example]. For each vessel's logbooks, there will be three columns of Beginning and Ending Dates for the logs. A City Code associated with each line of dates will appear before in front of the columns of beginning and ending dates. Be aware that some logs only have a beginning date and some only have an ending date.

Step 3 – Once you have found the log with the correct dates, then note the corresponding City Code Number associated with the logbook for those dates.

Step 4 – Return to the beginning of the book to page 1 where there is a key to the City Codes. Match the City Code to a city and the corresponding National Archives facility. Contact the appropriate National Archives facility for logbooks relevant to your research.

[Example]:

Vessel Name	City Code	Beginning Date	Ending Date	Beginning Date	Ending Date	Beginning Date	Ending Date
Acadia	07	1942-06-02					
	36	1942-04-28	1942-04-29				

Merchant Marine logbooks are not required for vessels traveling in continental waters of the United States (inland and coastwise trade). The logbooks are required for vessels traveling between Atlantic and Pacific ports and ships involved in foreign trade. The logbooks must be submitted to the U.S. Coast Guard at the port of final discharge of the voyage.

Merchant Marine logbooks are permanent records under the Coast Guard records disposition schedule (COMDTINST M4512.12, CH. 2, Section 9 (page 9-9), item 237-transfer to NARA when 30 years old.

The logbooks less than 75 years of age are subject to the privacy exception of the Freedom of Information Act (5 USC 552(b)(6)). The National Archives may provide copies of the crew list and voyage stops, but other pages must be screened and redacted if necessary.
