~~are~~ witnesses - also Tony Williams
Henry Brown, Coroner

Dr John Lunny, I now say -

That Dr. Dorgan & I made a post mortem
examination of the body of deceased on Nov.
10, 1873, and found that death was caused by
compression of the brain, resulting from extravasation
of blood and subsequent inflammation and suppu-
ration within the cavity of the cranium; and
that the compression referred to was caused by a
depressed compound comminuted fracture of the
skull the result of a blow with some heavy
instrument. I am of the opinion that the in-
jury was of a fatal character and that no
treatment would have been of any avail.

John Lunny, M.D.

Dr. T. A. Dorgan, sworn says:

I agree entirely with the above
statement of facts

T. A. Dorgan M.D.

Sworn to before me this

11th Day of November, A.D.
